

## Message 2

*Tells who he really was*

Jesus – September 28, 1914

I was not conceived by the Holy Spirit, as it is taught by the preachers and teachers who are now leading mankind in the doctrines of the churches. I was born as you were born, and my earthly father was Joseph. I was conceived by God's spirit in the sense that I was born free from sin and error, while all other human beings were born in sin and error. I never was a human being so far as my spiritual existence is concerned, as I was always free from sin and error, but I had all the feelings and longings of a human being which were not of sin. My love was human as well as spiritual, and I was subject to all the feelings of sympathy and love that any other human being was. Do not understand that I was with desires and longings for the pleasures of the world which the human passions created. I was not, only I was capable of deep feeling, and could feel and know the suffering and distress of humanity.
